

May and June Newsletter - Kids' Club

May and June were very busy months in our club!

May & June Highlights:

May brought us beautiful weather. It was so warm that we surprised Piper with freeze pops and balloons outside for her birthday. This month, we painted lots of flowers, mostly tulips, inspired by the Tulip Festival, a famous May event in our city. For Mother's Day, we made beautiful flowers out of crepe paper and pipe cleaners. Most of the time was spent outside in fresh air playing soccer, basketball, and mini-stick hockey. One of the popular activities this month was playing with kinetic sand, which we often brought outside.

June welcomed Kattia to our little gang. 

The weather was so hot that we enjoyed spending some time inside where it was nice and cool. The girls especially liked making bracelets, while the boys played ping-pong and built crazy forts. Some of us also made cards for Father's Day.

What's New:

- We ordered new pinnies in two colours: blue and red, which everyone loves.
- We also bought new street hockey balls and nets, which we use for soccer too.
- For our library, we added some *Diary of a Wimpy Kid* books that we didn't have in our collection.
- As we prepare to welcome new kids next year, we bought some art supplies and organized our closets.

We wish everyone a happy and enjoyable summer!
